## PhD Fellowships

### Open call in Experimental and Theoretical Quantum Science & Technology Vienna Center for Quantum Science and Technology (VCQ)

The Vienna Center for Quantum Science and Technology (VCQ) is a joint collaboration initiative, which currently involves about 25 research groups based at four leading research institutions in and around Vienna. The aim of the VCQ is to advance modern quantum science and technology based on a broad and multidisciplinary research agenda. The topics addressed within VCQ range from the foundations of quantum mechanics to complex quantum optical and many-body effects and their application for emerging quantum technologies.

<https://vcq.quantum.at/>

Our VCQ-PhD School invites you to become part of an active community of young scientists with opportunities to do experimental and/or theoretical research at the forefront of Quantum Science. You will also get to participate in networking events, international conferences, transferable skills and career development training.

<https://vcq.quantum.at/phd-program/>

We offer fully funded positions based at the University of Vienna, TU Wien, the Austrian Academy of Sciences, and IST Austria. The city of Vienna also provides a very high quality of life.

**Application deadline:** 7th of January 2022  
**Hearings:** 7th & 8th of February 2022 (via zoom)  
**Follow up interviews:** 14th - 18th of February 2022
